

SYSTEM FRICTION INSTITUTE

Frictionnaut Field Workbook

Operational sheets for SFI field operators.

DOCUMENT	VERSION	STATUS	SERIES
SFI-WB-001	1.0	FIELD WORKBOOK	SFI Technical Library

OPERATOR WORKBOOK

Before the Field

Observe the operator before observing the case.

Operator Self-Check

FIELD	RECORD
What do I know?	
What am I assuming?	
What evidence is missing?	
What must not be inferred?	

RULE
Do not intervene until the hypothesis has been registered.

Session Capture

FIELD	RECORD
Literal phrases	
Silences	
Contradictions	
Bodily shifts	

RULE

Do not intervene until the hypothesis has been registered.

Hypothesis Sheet

FIELD	RECORD
Case ID	
Phenotype estimated	
SSP expected	
Explicit prediction	
Probability	

RULE

Do not intervene until the hypothesis has been registered.

Perturbation Sheet

FIELD	RECORD
Type	
Why this type	
Risk	
Do not do	
Success criterion	

RULE

Do not intervene until the hypothesis has been registered.

72h Return

FIELD	RECORD
Movement observed	
Evidence	
EP_state update	
Prediction status	

RULE

Do not intervene until the hypothesis has been registered.

7d Return

FIELD	RECORD
Trajectory sustained	
CP days	
New evidence	
Hypothesis status	

RULE

Do not intervene until the hypothesis has been registered.

30d Return

FIELD	RECORD
Consolidation	
Regression	
Instrument mutation	
Atlas update	

RULE

Do not intervene until the hypothesis has been registered.

90d Return

FIELD	RECORD
Structural integration	
Prediction accuracy	
Protocol update	
Archive decision	

RULE

Do not intervene until the hypothesis has been registered.
